

EXPRESSION OF INTEREST (EOI)

Offshore Environmental Effects Monitoring

Provision of: Offshore Environmental Effects Monitoring (EEM)
EOI Reference No: OP14
BIDS Category: 9145, 9472
Issue Date: July 4, 2011
Closing Date: July 15, 2011

Introduction

Encana Corporation is the owner and operator of the Deep Panuke natural gas project in Nova Scotia's offshore. The project involves the installation of the facilities required to produce natural gas from the Deep Panuke field, located approximately 175 kilometres offshore Nova Scotia. Natural gas from Deep Panuke will be processed offshore and transported, via subsea pipeline, to Goldboro, Nova Scotia for further transport to market via the Maritimes & Northeast Pipeline (M&NP).

Encana is an innovative natural gas producer that safely and responsibly provides the energy used in communities across Canada and the United States. Encana common shares trade on the Toronto and New York stock exchanges under the symbol ECA. For more information on Encana, see www.encana.com.

Business Opportunities

Encana is committed to providing opportunities for Nova Scotian and Canadian companies through employment, procurement and contracting on an internationally competitive basis, with full and fair opportunity for Nova Scotians and Canadians, and first consideration to Nova Scotians where competitive on a best value basis. Companies who have been invited to tender will be required to complete a Canada-Nova Scotia Benefits Questionnaire, and demonstrate their commitment to and compliance with Encana's requirements regarding Canada-Nova Scotia Benefits, during the tender process.

Expression of Interest

Encana is seeking to pre-qualify experienced contractors to conduct offshore environmental effects monitoring services.

Scope of Work

The offshore environmental effects monitoring (EEM) Scope of Work (the "Services") is to support the Deep Panuke production phase activities and includes:

- Marine water quality sampling at various offshore stations;
- Sediment chemistry and toxicity sampling at various offshore stations;
- Mussel and fish sampling and health assessment from various offshore stations;
- Analysis of ROV videocamera imagery provided by Encana for fish habitat assessment;
- Provision of an annual EEM report summarizing results of the studies listed above as well other EEM studies results to be provided by Encana (e.g. produced water chemistry and toxicity, marine wildlife observations and air quality monitoring); and
- Provision of the recommended EEM program design for the following year.

The EEM services provider will be responsible for the provision of equipment and personnel for the offshore water, sediment and fish sampling work. Contractor will need to coordinate with Encana to use existing logistical resources in the Deep Panuke field to conduct the sampling work (e.g. existing supply vessels, Fast Rescue Craft, etc).

The EEM services provider must be from a recognized organization and must have demonstrated experience in providing the Services.

Information Requested with EOI response

Interested firms are asked to submit a brief Company profile, contact details, key personnel and a summary of related experience including local Nova Scotia capabilities.

Encana will select qualified bidders using the responses to this EOI as a guide. Any eventual list of Bidders will be posted on the Encana website and other industry websites such as BIDS Nova Scotia. Encana reserves the right to select more than one Contractor to execute the above Scope of Work.

Encana is under no obligation to proceed with a Request for Proposal as a result of this call for Expressions of Interest. Respondents that qualify will be invited to participate in the event Proposals are solicited.

Expressions of Interest must be received on or before July 15, 2011, 1:00 Atlantic time.

All inquiries, requests and Expression of Interest must be clearly marked with the EOI reference number and should be directed to:
