

ENCANA CORPORATION Expression of Interest (EOI)

PROVISION OF: BIDS Category:	Onshore Topographic and Geotechnical Survey 9100 Engineering Consultants & Support Services 9120 Geophysical, Geotechnical, Geological 9400 Services General 9424 Land Survey
Reference:	EOI 2007025PK
Issue Date:	16 November 2007
Closing Date:	23 November 2007 1:00 pm Halifax local time.

INTRODUCTION

EnCana is developing its Deep Panuke gas prospect located offshore Nova Scotia, approximately 250km southeast of Halifax and 44km to the West of Sable Island. The Deep Panuke Project includes satellite subsea production wells and one injection well (for acid gas disposal) individually tied back to a leased Production Field Center (PFC). The PFC will provide facilities for separation, inlet and export compression, sweetening and dehydration equipment. The export gas will be sales quality and exported via a new 176km (173km offshore and 3km onshore), 22-inch gas pipeline to Goldboro, Nova Scotia where it will interconnect to the M&NP pipeline, downstream of the SOEP gas plant.

The Deep Panuke Project will generate important activity and provide significant opportunities within Nova Scotia and Canada. In recognition of this, EnCana Corporation is committed to using and encouraging capable and competitive Nova Scotian and Canadian companies for the provision of the high quality goods and services required in these activities.

SCOPE OF WORK

EnCana Corporation seeks qualified, experienced parties to obtain fit-for-purpose, high quality topographic survey data and base mapping preparation services for the Deep Panuke onshore pipeline route corridor located in Goldboro, Nova Scotia. The route corridor is 100m wide and approximately 3000m long and starts where the offshore pipeline makes landfall and ends at the proposed M&NP pipeline tie-in location.

EnCana may also wish to include an option to perform a shallow geotechnical investigation along the corridor to categorize the soil stratigraphy to a depth of 5m below surface.

Interested parties must include provision of all necessary equipment and personnel to complete the scope of work. The work shall be completed by the end of 2007.

GENERAL REQUIREMENTS

Respondents must be qualified and demonstrate that they have suitable processes and capability to complete the scope of work. They must also be able to demonstrate previous experience on similar projects.

Interested firms are asked to demonstrate their capabilities and experience (for both topographic and geotechnical survey) via a formal response to this Expression of Interest and submit a brief Company profile, contact details, equipment description, availability, key

personnel and a summary of related experience. In addition, respondents shall describe the quality assurance program which it currently has in place.

EnCana is committed to providing opportunities for Nova Scotian and Canadian companies through employment, procurement and contracting on an internationally competitive basis with full and fair opportunity for Canadians, and first consideration to Nova Scotians where competitive on a best value basis.

Pre-qualified companies will be required to complete a Canada-Nova Scotia Benefits questionnaire, and demonstrate their commitment to and compliance with EnCana's requirements regarding Canada-Nova Scotia Benefits, during the tender process.

EnCana will select qualified bidders using the respondents to this Expression of Interest as a guide.

Expressions of Interest must be received on or before **23 November 2007 1:00 pm Halifax local time**.

All inquiries and Expressions of Interest must be clearly marked with the EOI reference number Z2007025PK and should be directed to:
