

ENCANA CORPORATION Expression of Interest (EOI)

PROVISION OF: **Design of Subsea Wellhead Protection Structures**
BIDS Category: 9100 Engineering Consultants & Support Services
Reference: EOI SS05
Issue Date: 29 February 2008
Closing Date: 10 March 2008 1:00 pm Halifax local time

DEEP PANUKE PROJECT SUMMARY

EnCana is developing the Deep Panuke natural gas project in Nova Scotia's offshore (PROJECT). The PROJECT involves the installation of the facilities required to produce natural gas from the Deep Panuke field, located about 175 kilometres offshore Nova Scotia, approximately 47 kilometres west of Sable Island in a water depth of approximately 44 metres. Produced gas will be transported by subsea pipeline to Goldboro, N.S., where it will be transported via the Maritimes & Northeast Pipeline (M&NP) to markets in Eastern Canada and the northeastern United States. The design capacity of the project is up to 300 MMcf/d of sales-quality gas.

Regulatory applications for Deep Panuke were filed in 2006, with approvals granted in 2007. Deep Panuke was approved for development by EnCana's Board of Directors in October 2007. First gas from the project is expected in late 2010.

EnCana is a leading North American natural gas producer. EnCana common shares trade on the Toronto and New York stock exchanges under the symbol ECA. For more information on EnCana, see www.encana.com

SCOPE OF WORK

EnCana Corporation seeks qualified, experienced parties to provide engineering services for the detailed design of five (5) subsea Wellhead Protection (WHP) Structures, required to protect the Subsea Tree, Flowline Connection, and Umbilical Terminations against dropped objects and fishing gear. The WHP Structure is a steel tubular lattice frame with an estimated 10m x 10m base, 10m overall height, and approximate weight of 50 tonnes.

The scope of work is summarized as follows:

- Full structural analysis (transport, installation, and in-place conditions) including VIV/Fatigue analysis and FE analysis for dropped object loading;
- Preparation of detail design reports;
- Preparation of detail material and fabrication specifications;
- Preparation of detail structural steel CAD drawings.

Interested parties must include provision of all necessary personnel and software packages to complete the entire scope of work.

It is anticipated that the Work will be awarded in April, 2008. Final detail drawings for fabrication are required no later than July, 2008.

GENERAL REQUIREMENTS

EOI respondents are required to have an implemented Quality Management System that complies with the requirement of the ISO-9000 series of Standards and Safety Management Systems(s). Respondents are also notified that the Work carried out on the Deep Panuke Project shall comply fully with Canada Nova Scotia Offshore Petroleum Board Regulations.

Respondents must be qualified and demonstrate that they have suitable resources, processes, capability and capacity to complete the scope of work. They must also be able to demonstrate previous experience on similar projects.

Interested firms are asked to demonstrate their capabilities and experience via a formal response to this Expression of Interest and the Prequalification Questionnaire, which can be obtained from BIDS Nova Scotia at the address provided below.

In accordance with the commitments made by EnCana, priority will be given to companies who can demonstrate the capability to complete the scope of work in Nova Scotia on a competitive basis, meeting or exceeding EnCana's requirements for safety, quality, technical suitability, reliability, delivery and environmental standards. Pre-qualified companies will be required to complete a Canada-Nova Scotia Benefits questionnaire, and demonstrate their commitment to and compliance with EnCana's requirements regarding Canada-Nova Scotia Benefits, during the tender process.

EnCana will select qualified bidders using the respondents to this Expression of Interest as a guide.

Expressions of Interest must be received on or before **10 March 2008 1:00 pm Halifax local time.**

All inquiries and Expressions of Interest must be clearly marked with the EOI reference number and should be directed to:
