

ENCANA CORPORATION Expression of Interest (EOI)

PROVISION OF:	Meteorological and Oceanographic Services
BIDS Category:	8200, 8900, 9300, 9400
Reference:	EOI OP06
Issue Date:	December 1, 2008
Closing Date:	December 15, 2008

INTRODUCTION

EnCana Corporation is developing the Deep Panuke natural gas project in Nova Scotia's offshore. The project involves the installation of the facilities required to produce natural gas from the Deep Panuke field, located approximately 175 kilometres offshore Nova Scotia. Natural gas from Deep Panuke will be processed offshore and transported, via subsea pipeline, to Goldboro, Nova Scotia for further transport to markets via the Maritimes & Northeast Pipeline.

EnCana is a leading North American unconventional natural gas and integrated oil company. EnCana common shares trade on the Toronto and New York stock exchanges under the symbol ECA. For more information on EnCana, see www.encana.com.

PROJECT QUICK FACTS

- The project was approved for development by EnCana's Board of Directors in October 2007.
- EnCana has entered into an agreement with Single Buoy Moorings Inc. (SBM) for the provision and operation of the Deep Panuke production field centre.
- The design capacity of the project is 300 MMcf/d of sales-quality gas.
- Regulatory applications for Deep Panuke were filed in 2006, with approvals granted in 2007.

BUSINESS OPPORTUNITIES

EnCana is committed to providing opportunities for Nova Scotian and Canadian companies through employment, procurement and contracting on an internationally competitive basis, with full and fair opportunity for Nova Scotians and Canadians, and first consideration to Nova Scotians where competitive on a best value basis. Companies who have been invited to tender will be required to complete a Canada-Nova Scotia Benefits Questionnaire, and demonstrate their commitment to and compliance with EnCana's requirements regarding Canada-Nova Scotia Benefits, during the tender process.

Interested firms are requested to demonstrate their capabilities and experience via a formal response to this EOI.

SCOPE OF WORK

EnCana requires meteorological and oceanographic services for the development phase activities of the Deep Panuke offshore gas development project off Nova Scotia in 2009 and 2010. Work locations include, but are not limited to, offshore drilling rigs, supply vessels, pipeline installation vessels, diving vessels, etc, in the Deep Panuke Production Field Centre (PFC) area, along the Deep Panuke proposed pipeline route, and along transit routes between the Deep Panuke PFC area and potential shore-bases (e.g. Halifax, Goldboro).

Contractor must be qualified to conduct the following tasks in compliance with the CNSOPB Physical Environmental Guidelines:

- 1) Weather forecasting (including site and route forecasts) and verification
- 2) Equipment sourcing, mobilization, installation, maintenance, data processing and reporting for meteorological and oceanographic systems for drilling programs (e.g. anemometer, barometer, ADCP or other systems measuring current speed and direction, conductivity, temperature and pressure measurements, waverider or other systems measuring wave height and period, sea surface temperature measurement, etc.)
- 3) Provide environmental design criteria (extreme and operational statistics) for offshore activities including winds, waves, currents, water levels, tides, temperatures, precipitation, ice, seismic, biofouling, scour, etc.
- 4) Other miscellaneous metocean-related tasks including, but not limited to:
 - o provide weather observation training;
 - o provide technical expertise (including supporting documentation) to support EnCana's regulatory applications (e.g. Regulatory Query Forms) or internal metocean-related decisions; and
 - o conduct dispersion modeling to support environmental protection and monitoring studies (e.g. pipeline hydrostatic testing fluid modeling, produced water modeling, etc).

Successful bidders must be able to show a proven track record for working with the harsh conditions offshore Atlantic Canada and be current with the newest revision of the CNSOPB Physical Environmental Guidelines.

INFORMATION REQUESTED WITH EOI RESPONSE

Respondents must submit a brief Company profile, contact details, key personnel and a summary of related experience including local Nova Scotia capabilities and all data pertinent to the scope of supply.

EnCana will select qualified bidders using the responses to this EOI as a guide. Any eventual list of Bidders will be posted on the EnCana website and other industry websites such as BIDS Nova Scotia. EnCana reserves the right to select more than one Contractor to execute the above Scope of Work. EnCana is under no obligation to proceed with a Request for Proposal as a result of this call for Expressions of Interest. Respondents that qualify will be invited to participate in the event Proposals are solicited.

Expressions of Interest must be received on or before 15 December, 2008. 1:00 P.M. Atlantic time.

All inquires and Expression of Interest must be clearly marked with the EOI reference number and should be directed to:

Interested firms are requested to demonstrate their capabilities and experience via a formal response to this EOI and the Prequalification Questionnaire, which can be obtained from BIDS Nova Scotia at the address provided below.

Expressions of Interest must be received on or before December 15, 2008. 1:00 PM Atlantic time.

All inquires and Expression of Interest must be clearly marked with the EOI reference number and should be directed to:
