## **1 INTRODUCTION**

### **1.1 Description**

EnCana Corporation is proposing to develop its Deep Panuke gas prospect located offshore Nova Scotia. The Project Field Center, which will contain all of the main facilities, will be located approximately 250 km southeast of Halifax, approximately 47 km west of Sable Island and in 45 metres water depth.

The Project involves production and processing of gas offshore and transport, via subsea pipeline, of market-ready gas to Goldboro, Nova Scotia to an interconnection with the M&NP main transmission pipeline for further transport to markets in Canada and the northeast United States.

### **1.2 Scope**

EnCana wishes to identify qualified companies for the supply of a permanent welded in place pig trap for EnCana's onshore pipeline facilities.

SUPPLIER must provide all services and material required for the design, manufacture and supply of the carbon steel pig trap that shall be designed and fabricated in accordance with ASME VIII, and will be rated to a design pressure of 153 Barg.

To provide this product, Supplier must be qualified and demonstrate that they have suitable processes and capability to manufacture the materials within the Project Schedule dates outlined in the Expression of Interest. They must also be able to demonstrate previous experience with the manufacturing of similar pig traps .

## **2 INSTRUCTIONS**

Respondents shall complete and submit the Prequalification Questionnaire, including Appendix A attached hereto.

Respondents shall provide information as instructed in the Questionnaire. In some cases supplementary information is requested to support the answers. A Contents List, that clearly details the documents that are included in support of the submission, shall be provided. Any answers, which refer to respondents' documents that are included to support the Questionnaire, should specify the page(s)/section(s) containing the information. The page(s)/section(s) referenced should be marked to indicate the section to which it refers. Separate sheets, as necessary, should be used to provide additional information.

Respondents are advised that the information requested in the Questionnaire are minimum requirements, sufficient for the EOI. For those companies invited to bid, additional detailed information will be requested by EnCana at the Request for Proposal stage to adequately assess bidder's capability to perform the work.
