

**ENCANA CORPORATION
EXPRESSION OF INTEREST (EOI)
PL23 – Nitrogen Pumping Services**

Provision of: Nitrogen (N₂) Pumping Services
EOI Reference Number: PL23
BIDS Category: 5950, 5960, 9833
Issue Date: 12 December 2011
Closing Date: 23 December 2011

Introduction

Encana Corporation is the owner and operator of the Deep Panuke natural gas project in Nova Scotia's offshore. The project involves the installation of the facilities required to produce natural gas from the Deep Panuke field, located approximately 175 kilometres offshore Nova Scotia. Natural gas from Deep Panuke will be processed offshore and transported, via subsea pipeline, to Goldboro, Nova Scotia for further transport to market via the Maritimes & Northeast Pipeline.

Encana is an innovative natural gas producer that safely and responsibly provides the energy used in communities across Canada and the United States. Encana common shares trade on the Toronto and New York stock exchanges under the symbol ECA. For more information on Encana, see www.encana.com.

Business Opportunities

Encana is committed to providing opportunities for Nova Scotian and Canadian companies through employment, procurement and contracting on an internationally competitive basis, with full and fair opportunity for Nova Scotians and Canadians, and first consideration to Nova Scotians where competitive on a best value basis. Companies who have been invited to tender will be required to complete a Canada-Nova Scotia Benefits Questionnaire, and demonstrate their commitment to and compliance with Encana's requirements regarding Canada-Nova Scotia Benefits, during the tender process.

Interested firms are requested to demonstrate their capabilities and experience via a formal response to this EOI.

Scope of Work

Encana Corporation seeks qualified individuals, groups and/or companies for the provision of Nitrogen (N₂) and the associated Pumping Services to perform a warm nitrogen purge of its Gas Export Pipeline.

The Scope of Work shall consist of the injection of nitrogen at 9900 kPa and up to 100 C at a rate of 180 m³/min. The nitrogen will be injected into a natural gas pipeline for approximately two (2) to four (4) hours while the pipeline is being purged with natural gas from a third party. Total nitrogen volume will be up to 30,000 m³ and the injection connection will be 2".

Interested Parties will be required to supply the nitrogen and all personnel, equipment, and materials to attain and maintain the required flow rate.

The Work is currently scheduled for execution in Q1, 2012.

EOI respondents are required to have an implemented Quality Management System that is certified in accordance with the requirement of the ISO-9001 series of Standards and Safety

Management Systems(s). Respondents are also notified that the Work carried out on the Deep Panuke Project shall comply fully with Canada Nova Scotia Offshore Petroleum Board Regulations.

Information Requested with EOI response

Respondents must submit a brief Company profile, contact details, key personnel and a summary of related experience including local Nova Scotia capabilities and all data pertinent to the scope of supply.

Encana will select qualified bidders using the responses to this EOI as a guide. Any eventual list of Bidders will be posted on the Encana website and other industry websites such as BIDS Nova Scotia. Encana reserves the right to select more than one Contractor to execute the above Scope of Work.

Encana is under no obligation to proceed with a Request for Proposal as a result of this call for Expressions of Interest. Respondents that qualify will be invited to participate in the event Proposals are solicited.

Expressions of Interest must be received on or before Friday, 23 December, 2011- 1:00 PM Atlantic time.

All inquires and Expression of Interest must be clearly marked with the EOI reference number and should be directed to:
